Statement on Packaging

Dear Sir or Madam,

At RST Rabe-System-Technik und Vertriebs GmbH, we are committed to ensuring that all applicable legal requirements for the protection of human health and the environment are observed throughout the procurement, storage and distribution of our products.

This statement applies to the packaging and packaging components supplied by RST. The packaging materials used typically include paper and cardboard packaging, plastic packaging and wood.

Based on the information provided by our suppliers and our own due diligence and verification procedures, the packaging used by RST complies, to the best of our current knowledge, with the applicable requirements of Regulation (EU) 2025/40 on Packaging and Packaging Waste (PPWR), insofar as these requirements are applicable at the date of this statement.

According to the information available to us, the combined concentration of lead (Pb), cadmium (Cd), mercury (Hg) and hexavalent chromium (Cr(VI)) in the packaging and packaging components supplied by RST does not exceed the limit of 100 ppm (0.01% by weight). Furthermore, these substances are not intentionally introduced into the packaging materials according to the information provided by our suppliers.

As part of our statutory due diligence obligations, we obtain and review relevant information and supporting documentation from our suppliers and continuously monitor the implementation of applicable PPWR requirements, including those relating to packaging identification, recyclability and other applicable provisions.

This statement has been prepared in good faith based on the information available at the date of issue. It does not constitute an EU Declaration of Conformity within the meaning of Regulation (EU) 2025/40.
